**Subject:** Subpart ZZZZ Engine Testing

Hi Heather,

As discussed in our telephone conversation, Sunoco Partners Marketing & Terminals L.P. is currently experiencing rainfall and expects additional storms over the next few days. Due to the sporadic and unpredictable nature of the operation of the wastewater diesel engines (Source ID: 113) based on rainfall, the EPA has allowed notification for the performance testing to take place by telephone and email as soon as SPMT is aware of the possibility of completing a test, rather than the 60-day written notification per the attached letter. If there is sufficient rainfall, SPMT will conduct the testing on August 18<sup>th</sup> and 19<sup>th</sup>, 2021. If the testing cannot be completed on these dates, SPMT will notify you by telephone and email.

If you have any questions, comments, or concerns, please do not hesitate to contact me.

Thanks,  
Kevin
